

**GHER RABIE
CONSTRUCTION**

PROVEN SKILLS, INSPIRED GROWTH

A SIMPLE PHILOSOPHY

WHAT WE'VE BUILT SHOWS OUR SKILLS
WHAT'S NEXT SHAPES OUR GROWTH

Gher Rabie Construction has grown steadily from humble beginnings, starting with small renovation projects and evolving into the construction of high-quality, complex structures.

Founded in 1999 after Gher Rabie's promising rugby career was cut short by injury, the company draws on deep roots in the Robertson community and a family heritage in construction.

For Gher, challenges have always been opportunities to innovate and grow, turning obstacles into achievements and laying the foundation for the company's ongoing development. This mindset is reflected in our vision, "Proven Skills, Inspired Growth," which embodies our philosophy: what we've built demonstrates our skills, and what's next shapes our growth.

Today, we deliver residential, commercial, industrial, hospitality, agricultural, and small civils projects, bringing clients' visions to life with attention to detail, quality workmanship, and careful management of programme and budget across a 250km² radius of Robertson.

DELIVERY OVERVIEW

CAREFUL PLANNING, HANDS-ON MANAGEMENT, AND ATTENTION TO DETAIL THROUGH EVERY PHASE OF YOUR PROJECT

We have proven capability across new construction, refurbishment, fit-out, and restoration projects.

Our portfolio includes contemporary double-volume residences, lodges, and restaurants, as well as specialised elements such as podium swimming pools, and concrete wet works. We also have extensive experience restoring dilapidated structures, including the rehabilitation of neglected ruins and the upgrade of outdated buildings into functional, modern commercial spaces.

Our expertise spans residential, commercial, hospitality, and small civils sectors, delivering projects under both tender and design-build procurement, typically up to a contract value of R25 million.

Operating within a 250km² radius of Robertson, we maintain close relationships with local suppliers and take a hands-on approach to project management, ensuring quality, efficiency, and careful control of programme and budget at every stage.

WE ARE PROUDLY ASSOCIATED WITH SILVERSTAND RIVER & GOLF ESTATE, WHERE WE HAVE CONSTRUCTED MORE THAN 75 BEAUTIFUL HOMES

CONTINUOUS IMPROVEMENT

THE ROAD TO SUCCESS IS ALWAYS UNDER CONSTRUCTION AND IT IS NOT EASY TO BECOMING SUCCESSFUL STEVE HARVEY

As a small, privately owned construction company, our reputation is everything. We take full responsibility for delivering projects on time, within budget, and without unnecessary risk. This commitment drives our focus on site safety, operational efficiency, and robust processes that minimise errors.

We maintain safe, well-organised construction sites through ongoing safety awareness and good housekeeping practices, protecting employees, subcontractors, and visitors alike.

At the heart of our success is a core team aligned with our vision, working together with the understanding that as the company grows, so too do their skills and responsibilities. We know that our growth depends on improving efficiency, reducing errors, and delivering quality on every project.

PEOPLE ARE IMPORTANT TO US

The strong relationships we've built with local suppliers, subcontractors, consultants, and clients have enabled us to take on larger new-build and extension projects, as well as secure repeat business.

This, combined with our deep understanding of the local supply chain, these connections streamline project coordination and allow us to consistently meet programme and budget targets.
